

W. L. Gore & Associates

2023 IT Architect Summer Internships

We are looking for talented, hands-on individuals who have demonstrated the initiative to apply computer/technology fundamentals and successfully navigate ambiguity to solve problems and deliver results.

Typical Opportunities include:

- **Innovation Architect**

Understands the strategic direction of the enterprise and the supporting IT systems and architectures. Maintains knowledge of emerging technological trends and utilizes this knowledge to educate both IT and the business on opportunities to build better IT solutions that support and drive business decisions.

- **Enterprise Architect**

involves developing high level frameworks that align an organization's IT infrastructure with business processes/data to improve the efficiency and productivity of business operations including: Mapping the relationships between information systems components (i.e., end users, business processes, applications, data, IT platform hardware/software, and networks)

At Gore, we believe in you as an individual. We value your know-how and ideas. Our goal is to create a positive, respectful workplace in which everyone is treated fairly. If you are searching for a company where you can learn, contribute, and make a difference, we're looking for you!

Together, improving life
