

Student Electronics Shop Position

10-20 hours per week with a flexible schedule & fulltime summer work options
Starting salary of **\$18.69** hourly with opportunity for raises

Submit Resumes to pnsn@uw.edu Subject: Electronics Shop position

The Pacific Northwest Seismic Network is the authoritative seismic network for Washington and Oregon state. Our primary objectives are to monitor regional earthquakes, maintain 500+ seismic stations throughout the region, and provide quality seismic data for the public and scientists around the world.

The PNSN is seeking a motivated undergraduate to work with our field engineering team. This team is responsible for seismic equipment maintenance, testing, deployment and monitoring. Typical duties range from hands on work in the Seismology Lab and seismic field sites to documentation of equipment information and networking architecture. Duties will be performed at PNSN/UW and in the field.

Desired Skills (We can teach these as needed):

- Basic computer science knowledge (excel linux, etc.)
- Familiarity with multimeter and basic electronics
- Familiarity with circuit diagrams
- Familiarity with CAD software
- Willingness to work outdoors
- Likes to have fun! We can't teach you this
- Ability to work individually and as part of a team
- Driver's license
- Availability to work during the summer
