

Tesla x Washington

Electrical + Computer Engineering

Monday, February 12, 2024
4:00-7:00 PM

Hiring Managers and recruiting will be visiting the University of Washington to connect with ECE students about internship, co-op, and professional opportunities. Stop by the session below to learn more about career pathways and ways to help *accelerate the world's transition to **sustainable energy***.

Tesla Tech Talk + Networking Session

ECE 105

Hiring Managers from Tesla will be visiting campus to connect with engineering students about internship, co-op, and full-time opportunities within their departments. This event will begin with a technical introduction of the engineers and team in attendance, followed by a networking session that will allow students to connect with hiring managers directly.

Tesla Departments in attendance include Battery Engineering, Manufacturing Engineering, IT Applications, System Architecture, Power Electronics, Vehicle Software, Hardware Test Engineering, Silicon Development, and Recruiting.
