

Activator Program Info

Activator Program Applications are Open!

Are you a PNW-based academic trainee (Post-doc/PhD/MBA/MD/ID) interested in building a life science startup? Or do you want to join a biotech team, but don't have a blockbuster idea? The [Nucleate Activator Program](#) is here to support **YOU!**

Activator is a fee-and-equity-free program; as a 501(c)3 non-profit, we want to provide you with resources to help advance your dream! Nucleate has supported [400 venture teams across the past 5 years](#), with our alumni raising over \$370M USD to develop cutting-edge technologies like protein sequencing (Glyphic Biotechnologies), drug design (Manifold Bio), microbe-based therapeutics (Concerto Biosciences), and RNA-based therapeutics (NextRNA Therapeutics).

Don't have your own idea? Join a team as a scientific, business, or clinical contributor through our matching process. Nucleate Seattle welcomes applications from across the PNW, we are not just focused on Seattle!

Applications are now open, click [HERE](#) to apply!

Join us soon for an info session where our Leadership team can help you understand the program and application process, and answer any questions you may have! RSVP for those sessions [HERE!](#)

ACTIVATOR 2024-2025 CYCLE BEGINS!

HAVE A LIFE-SCIENCE INNOVATION? Apply as an [inventor!](#)

DO NOT HAVE YOUR OWN IDEA? Join a team as a scientific, business, or clinical [contributor!](#)
