

# Want to make a positive impact on the world?

**JOIN US AND LEARN HOW:**

**March 9 - 12, 2026**

1:00 - 3:30 PM PDT daily (4:00 - 6:30 PM EDT)

**Pacific Northwest National Laboratory**

leaders, researchers, and recruiters will discuss our work advancing science, technology, and national security. Plus, they'll discuss applying for and working in **internships, postdocs, and full-time jobs** available at our lab!

**Scan to register:**

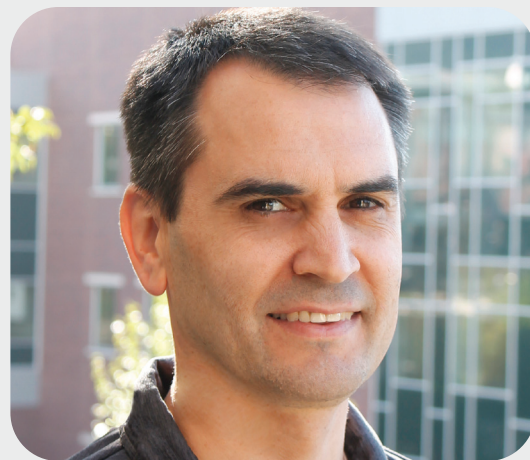

Or visit: [bit.ly/pnnl-uw](https://bit.ly/pnnl-uw)

This event is **free** and open to all academic programs, grade levels, degrees, and career levels.

Come and go as needed.

**Register now.**

Questions? Email: [careers@pnnl.gov](mailto:careers@pnnl.gov)

"After graduating from BYU, I completed a two-year postdoctoral fellowship at PNNL and then was hired there as a senior research scientist. I found it to be an incredibly innovative, collaborative, and supportive environment. One of my recent graduates is also getting her start at PNNL. **I would highly recommend attending Career Connections** to learn more about opportunities at national laboratories."

**DR. RYAN KELLY, PROFESSOR**  
BYU DEPARTMENT OF CHEMISTRY AND  
BIOCHEMISTRY
