

Autumn 2026  
Quarter

# VOLUNTEER FOR CREDIT!

BE A TECHNICAL MENTOR FOR A  
LOCAL FIRST WA ROBOTICS TEAM

## ABOUT THIS CLASS

Are you looking for a meaningful way to apply your ECE knowledge outside the classroom? This Autumn Quarter, the ECE is offering a unique course where you can earn academic credit by mentoring underserved local middle and high school students through FIRST Washington Robotics. In addition to making a real impact in the community, this hands-on experience is a great opportunity to build your resume with leadership, communication, and technical mentoring skills that are highly valued by employers.
