

Transforming the Northwest Energy System NWESS 2022

University of Washington
Virtual
April 6-7, 2022

Speaker: Jeff Kensok, PE and Consulting Engineer, Electric System Planning, Puget Sound Energy

Title: Reliability Improvements and Data Analytics at Puget Sound Energy

Abstract: This talk focuses on Puget Sound Energy’s (PSE) efforts to improve electric system reliability. The presentation will cover what data and information PSE is using to make system improvements in design and operations. He will discuss what works, what doesn’t, what should be measured and what it costs.

Bio: Jeff has worked in the electric power industry for 15 years, the majority of that time with Puget Sound Energy. He has worked as a planning engineer and a smart grid engineer in addition to his current role as a reliability strategist.

Root Cause Analysis
